

## DECLARATION OF RESPONSIBILITY

The Hilti Foundation study grant enables joining the Music Art Creativity Hub free of charge.

Being selected to participate and becoming part of MACH, Music Art Creativity Hub, means joining a musical development and production project that aims to create a deep approach to the musical language, through various forms of expression: artistic, pedagogical, and intellectual, capable of enriching the internal perceptive world of the individual.

The project includes a summer session in 2023.

Being selected for MACH means assuming the responsibility to participate in the 2023 summer session without possibility of cancellation.

Giving up the Hilti Foundation study grant, which enables free access to MACH, after successful selection, means depriving another young musician of the possibility of joining the project, compromising the success of the project itself.

By signing this document, you assume responsibility for the project by guaranteeing your active participation.
